#### INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members of the City Council City of George West

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of George West, as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise City of George West's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

The City of George West's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, business-type activities, each major fund and aggregate remaining fund information for the City of George West, as of September 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Information, Schedule of Changes — Net Pension Liability and Related Ratios, the Schedule of Employer Contributions and the Schedule of Changes — Other Post Employment Benefits (OPEB) as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of George West's basic financial statements as a whole. The combining and individual fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. These statements are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of George West's annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year ended September 30, 2020. Please read it in conjunction with the City's financial statements, which follow this section.

#### FINANCIAL HIGHLIGHTS

- The City's total combined net position was \$4.0 million at September 30, 2020.
- The general fund reported a deficit fund balance this year of \$49.5 thousand of which a deficit of \$54 thousand is unassigned.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the City:

• The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.

- The remaining statements are fund financial statements that
  focus on individual parts of the government, reporting the
  City's operations in more detail than the government-wide
  statements.
- The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.
- Proprietary fund statements offer short- and long-term Summary financial information about the activities the government operates like businesses.

ral as

Fund

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required* supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

| Type of asset/liabilitiy information   | All assets and liabilities, both<br>financial and capital,<br>short-term and long-term | Only assets expected to be used<br>up and liabilities that come<br>due during the year or thereafter;<br>no capital assets included   | financial and capital, and short-  |  |  |  |  |  |  |  |
| Type of<br>inflow/outflow<br>information   | All revenues and expenses during year, regardless of when cash is received or paid     | Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter. | All revenues and expenses<br>during year, regardless of when<br>cash is received or paid |  |  |  |  |  |  |  |

Figure A-2 summarizes the major features of the City's financial statements, including the portion of the City government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

#### **Government-Wide Statements**

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the City's net position and how they have changed. Net position—the difference between the City's assets and liabilities—is one way to measure the City's financial health or *position*.

- Over time, increases or decreases in the City's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City, one needs to consider additional non-financial factors such as changes in the City's tax base.
- The government-wide financial statements of the City include the *Governmental activities*. Most of the City's basic services are included here, such as general government, public safety, highways and streets, sanitation, economic development, culture and recreation, and interest on long-term debt. Property taxes and charges for services finance most of these activities.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the City's most significant funds—not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The City Council establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following kinds of funds:

- Governmental funds—Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page, which explains the relationship (or differences) between them.
- Proprietary funds—Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information.

#### FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

The City's combined net position was \$4.0 million at September 30, 2020. (See Table A-1).

Table A-1 City's Net Position

| Total Net Position                     | \$ 958,881                 | \$ 813,106 | \$ 3,053,088 | \$ 2,786,169      | \$ 4,011,969 | \$ 3,599,275 | 11.5   |

The unrestricted net position represents resources available to fund the programs of the City next year.

#### **Governmental Activities**

- Sales tax decreased by \$49 thousand. Charges for service decreased by \$91 thousand due to income from drug forfeiture funds received.
- A significant portion of the revenue, 78% comes from taxes, and 8% is received through charges for services.

Table A-3 presents the cost of each of the City's largest functions, as well as each function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars. The cost of all *governmental* activities this year was \$2 million. Taxpayers paid for 40% of these activities through property taxes of \$797 thousand.

# **Business-Type Activities**

Revenues of the City's Utility business-type activities increased 19% to \$2.2 million, and operating expenses increased 16.2% to \$2.2 million. Revenues are based on the City's established rates and fluctuations in expenses are primarily related to changes in usage throughout the City.

#### FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Revenues from governmental fund types totaled \$2.3 million. The \$68.3 thousand decrease from prior year is a \$50 thousand decrease in sales tax and \$26 thousand decrease in fines and penalties as well as a \$58 thousand decrease in miscellaneous. Ad Valorem taxes increase \$49 thousand.

### **Budgetary Highlights**

The City's actual expenditures in the General Fund were \$71 thousand more than the budgeted amounts and revenues were \$195 thousand less than budgeted amounts. Municipal fines, sales tax and property taxes made up the majority of the budget variance.

### CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

As of September 30, 2020, the City had invested \$4.8 million in a broad range of capital assets, including land, equipment, buildings, and vehicles. (See Table A-4.)

More detailed information about the City's capital assets is presented in the notes to the financial statements.

### Long Term Debt

At year-end, the City had bonds of \$2.1 million outstanding as shown in Table A-5. More detailed information about the City's debt is presented in the notes to the financial statements.

General Obligation Refunding Bonds, Series 2020, were issued in the amount of \$1,644,000 to repay the Certificate of Obligation bonds issued in 2004 and 2012. Proceeds from the bonds were placed with an escrow agent solely to repay the debt service related to the refunded obligations. The refunded obligation in the amount of \$1,610,000, collectively, are considered defeased and are not shown as outstanding on these financial statements. The refunding resulted in gross debt service savings of \$136,753, and a present value gain of \$119,684.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City's elected and appointed officials considered many factors when setting the fiscal year 2021 budget, tax rates, and fees that will be charged. The economic outlook for Live Oak County remains stable. The City's budget levels remain similar to previous years.

#### CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact City Hall at (391) 449-1556.

| BASIC FINANCIAL STATEMENTS   |
|--|
| The basic financial statements include integrated sets of financial statements as required by the GASB. The sets of statements include:        |
| <ul> <li>Government – Wide Financial Statements</li> <li>Fund Financial Statements:         <ul> <li>Governmental Funds</li> </ul> </li> </ul> |
| - Proprietary Funds  In addition, the notes to the financial statements are included to provide information that is                            |
| essential to a user's understanding of the basic financial statements.   |

# CITY OF GEORGE WEST RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION SEPTEMBER 30, 2020

| TOTAL FUND BALANCE - TOTAL GOVERNMENTAL FUNDS   | \$<br>787,232 |
|---|---------------|
| Amounts reported for governmental activities in the Statement of Net Position are different because:  |               |
| Capital Assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.                               | 1,144,082     |
| Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.                              | 112,462       |
| Accrued compensated absences are not due and payable in the current period and, therefore, not reported in the funds.                                   | (34,466)      |
| Long-term liabilities, including capital leases, are not due and payable in the   |               |
| current period and, therefore, not reported in the funds.   | (822,000)     |
| Net pension/OPEB liabilities (and related deferred outflows of resources) do not consume current financial resources and are not reported in the funds. |               |
| Net Pension Liability (116,499)   |               |
| Total OPEB Liability (49,632)   |               |
| Pension/OPEB Related Deferred Outflows 56,151   |               |
| Pension/OPEB Related Deferred Inflows (118,449)   | <br>(228,429) |

# CITY OF GEORGE WEST RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2020

| NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS   | \$<br>(89 |
|--|-----------|
| Amounts reported for governmental activities in the Statement of Activities are different because:   |           |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation. | 70        |
| Revenues in the Statement of Activities that do not provide current financial  |           |
| resources are not reported as revenues in the funds.   |           |
| Property Tax Receivable  | 40        |
| Governmental funds report required contributions to employee pensions as expenditures. However in the Statement of Activities the cost of the pension is recorded based on the actuarially determined cost of the plan. This is the amount   |           |
| that pension expense exceeded the contributions.   | 78        |
| Governmental funds report required contributions to employee OPEB as expenditures. However in the Statement of Activities the cost of the OPEB is recorded based on the actuarially determined cost of the plan. This is the amount that OPEB expense exceeded the contributions.  | (2        |
| The issuance of long-term debt (e.g. bonds and capital leases) provides current financial resources to the governmental funds, while the repayment of the  |           |
| principal of long-term debt consumes the current financial resources of  |           |
| governmental funds. Neither transactions, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.  |           |
| Issuance of Debt (822,000)   |           |
| Principal Payments 869,150   | 47        |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.  |           |
| Change in Compensated Absences (7,350)   |           |
| Change in Accrued Interest 7,914   |           |
|  |           |

#### NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of George West, Texas ("City") was incorporated in 1946 under the provisions of the State of Texas. The City operates under a Home Rule Charter, which was adopted October 24, 1979. The City provides the following services as authorized by its charter: police and fire protection, parks and recreation, general administrative services, and utility services.

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

#### 1. REPORTING ENTITY

Component Units

The City has evaluated related organizations and had determined that none of them qualify as component units. These financial statements only include the financial reporting entity.

### 2. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements include the statement of net position and the statement of activities. Government-wide statements report information on all of the activities of the City. The effect of interfund transfers has been removed from the government-wide statements but continues to be reflected on the fund statements. Governmental activities are supported mainly by taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods and services.

The statement of activities reflects the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included in program revenues are reported as general revenues.

Separate fund financial statements are provided for governmental funds and proprietary funds. The General Fund meets the criteria as major governmental funds.

### NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. This measurement focus is also used for the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenue types which have been accrued consist of revenue from the investments, property taxes, intergovernmental revenue and charges for services. Grants are recognized as revenue when all applicable eligibility requirements imposed by the provider are met.

Revenues are classified as *program revenues* and *general revenues*. Program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues include all taxes, grants not restricted to specific programs, investment earnings, and other miscellaneous revenues.

Governmental fund level financial statements are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Measurable and available revenues include revenues expected to be received within 60 days after the fiscal year ends. Receivables which are measurable but not collectible within 60 days after the end of the fiscal period are reported as deferred revenue.

Expenditures generally are recorded when a fund liability is incurred; however, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the liability has matured and payment is due.

The government reports the following major governmental funds:

The General Fund is the general operating fund of the City and is always classified as a major fund. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include property taxes, charges for services, intergovernmental revenues and investment of idle funds. Primary expenditures are for general administration, police, fire, recreation, public works, municipal court and sanitation.

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The City has the following non-major funds: Hotel Occupancy, Court Security, Court Technology, Court Child Safety, Drug Forfeiture, Certificate of Obligation 2016, and Sports Complex.

### NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (Continued)

Proprietary fund level financial statements are used to account for activities, which are similar to those often found in the private sector. The measurement focus is upon determination of net income, financial position and cash flows. The City's Proprietary Fund is the Utility Fund (used to account for the provision of water, gas, garbage and sewer services to residents).

The **Proprietary Fund** is accounted for using the accrual basis of accounting as follows:

- 1. Revenues are recognized when earned, and expenses are recognized when the liabilities are incurred.
- 2. Current-year contributions, administrative expenses and benefit payments, which are not received or paid until the subsequent year, are accrued.

Proprietary funds distinguish operating revenues and expenses from non-operating. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

### 4. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash deposits and investments with a maturity date within three (3) months of the date acquired by the City.

#### 5. INVESTMENTS

State statutes authorize the City to invest in (a) obligations of the United States or its agencies and instrumentalities; (b) direct obligations of the State of Texas or its agencies; (c) other obligations, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States; (d) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent; (e) certificates of deposit by state and national banks domiciled in this state that are (i) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or, (ii) secured by obligations that are described by (a) - (e). Statutes also allow investing in local government investment pools organized and rated in accordance with the Interlocal Cooperation Act, whose assets consist exclusively of the obligations of the United States or its agencies and instrumentalities and repurchase assessments involving those same obligations. The City has all its monies in interest bearing checking accounts, savings accounts, and government investment pools. Earnings from these investments are added to each account monthly or quarterly. Investments are carried at fair market value except for certificates of deposit which are carried at amortized cost.

### NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 5. INVESTMENTS (Continued)

The City reports investments at fair value based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City's investments in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool maintains a consistent net asset value per share that approximates the fair value of the underlying securities. These investments are reported at net asset value.

### 6. ACCOUNTS RECEIVABLE

Property taxes are levied based on taxable value at January 1 prior to September 30 and become due October 1, 2019 and past due after January 31, 2020. Accordingly, receivables and revenues for property taxes are reflected on the government-wide statement based on the full accrual method of accounting. Property tax receivables for prior years' levy are shown net of an allowance for uncollectibles; however, presently the City estimates that all accounts are collectible.

Accounts receivable from other governments include amounts due from grantors for approved grants for specific programs and reimbursements for services performed by the City. Program grants are recorded as receivables and revenues at the time all eligibility requirements established by the provider have been met.

Reimbursements for services performed are recorded as receivables and revenues when they are earned in the government-wide statements. Included are fines and costs assessed by the court action and billable services for certain contracts. Revenues received in advance of the costs being incurred are recorded as deferred revenue in the fund statements. Receivables are shown net of an allowance for uncollectibles.

#### 7. PREPAID ITEMS

Payments made for goods and services in advance are recorded as prepaid items on the balance sheet.

# 8. SHORT-TERM INTERFUND RECEIVABLES/PAYABLES

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the fund statements. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

### NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### DEFERRED INFLOWS AND OUTFLOWS OF RESOURCES

A deferred outflow of resources is a consumption of net position that is applicable to a future reporting period while a deferred inflow of resources is an acquisition of net position. These items are presented in separate section following assets (deferred outflows) or liabilities (deferred inflows) on the statement of net position.

Property tax revenues are recognized when they become both measurable and available in the fund statements. Available means when due, or past due, and receivable within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Property tax revenue not expected to be available for the current period are reflected as deferred inflows. Unavailable revenues arise when assets are recognized before revenue recognition criteria have been satisfied. Grant and reimbursement revenues received in advance of expenses/expenditures are reflected as unavailable revenue.

#### 10. CAPITAL ASSETS

Capital assets, which include land, buildings and improvements, equipment, utility systems, and infrastructure assets, are reported in the applicable governmental or business type activities column in the government-wide financial statements. Capital assets such as equipment are defined as assets with a cost of \$5,000 or more and a useful live in excess of 1 year. Infrastructure assets include City-owned streets, sewer, sidewalks, curbs and bridges. Capital assets are recorded at historical costs if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The Costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Interest has not been capitalized during the construction period on property plant and equipment.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| Asset                      | Estimated Life |
|----------------------------|----------------|
| Buildings and Improvements | 25 to 50 years |
| Vehicles and Equipment     | 5 to 25 years  |
| Infrastructure             | 50 years       |
| Utility System             | 15 to 25 years |

#### 11. COMPENSATED ABSENCES

Full time employees accrue 80 hours of vacation per year after completion of a 90 day probation period. Unused sick leave is not paid out on termination and is not accrued in these financial statements. Vacation leave is paid on termination and expires annually based on the calendar year. Vacation leave is accrued as incurred in the government-wide as it is expected to be paid with future financial resources.

### NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 12. LONG-TERM OBLIGATIONS

In the government-wide financial statements, long-term debt (including capital leases) and other long-term obligations are reported as liabilities under governmental activities or proprietary fund type statement of net position. On new bond issues, bond premiums and discounts are deferred and amortized over the life of the bond. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### 13. PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### 14. OTHER POST-EMPLOYMENT BENEFIT (OPEB) LIABILITY

For purposes of measuring the OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions, and OPEB expense, information about the Total OPEB Liability of the Texas Municipal Retirement System (TMRS) and additions to/deletions from TMRS' Total OPEB Liability have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms.

### NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 15. FUND BALANCES

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – Represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid items) or legally required to remain intact.

Restricted - Represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed - Represents amounts that can only be used for a specific purpose by a resolution of City Council. Committed amounts cannot be used for any other purpose unless the City Council removes those constraints through the same formal action.

Assigned - Represents amounts which the City intends to use for a specific purpose but do not meet the criteria of restricted or committed. Assignments may be created by the City Council.

Unassigned - Represents the residual balance that may be spent on any other purpose of the City.

When an expenditure is incurred for a purpose in which multiple classifications are available, the City considers restricted balances spent first, committed second and assigned third.

#### NET POSITIÓN

Net position represents the difference between assets and liabilities. Net position invested in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

#### 17. RECLASSIFICATIONS

Certain reclassifications have been made to prior periods to conform to the current year presentation. These reclassifications had no effect on net position.

### 18. OPERATING REVENUES AND EXPENSES

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise. For the City, those revenues are charges for sewer services. Operating expenses are the necessary costs incurred to provide the service that is the primary activity. Revenues and expenses not meeting these definitions are reported as nonoperating.

### NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 19. INTERFUND TRANSFERS

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

#### 20. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### NOTE B -- DEPOSITS AND INVESTMENTS

The City's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the City's agent bank approved pledge securities in an amount sufficient to protect City funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

### 1. Deposits

At September 30, 2020, all of the City's cash was fully collateralized.

### 2. Investments

The City is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the City adhered to the requirements of the Act. Additionally, investment practices of the City were in accordance with local policies.

### NOTE B -- DEPOSITS AND INVESTMENTS (Continued)

### 2. <u>Investments (Continued)</u>

The Act determines the types of investments which are allowable for the City. These include, with certain restrictions, 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper.

The City does not currently have any investments.

### 3. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the City was exposed to the following specific investment risks at year end and, if so, the reporting of certain related disclosures:

- a. Credit Risk Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the City was not significantly exposed to credit risk.
- b. Concentration of Credit Risk The risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the City was not exposed to a concentration of credit risk.
- c. Interest Rate Risk This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year-end, the City was not exposed to interest rate risk.
- d. Custodial Credit Risk Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the City's name. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the City's name. At year end, the City was not exposed to custodial credit risk.
- e. Foreign Currency Risk This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the City was not exposed to foreign currency risk.

#### NOTE C -- RESTRICTED CASH

Restricted cash for the City as of September 30, 2020 is as follows:

|                                 | H  | Balance  |  |  |
|---------------------------------|----|----------|--|--|
|                                 | 9/ | /30/2020 |  |  |
| Governmental Activities:        | -  |          |  |  |
| Special Police                  | \$ | 251,821  |  |  |
| Occupancy Tax                   |    | 156,827  |  |  |
| 2016 Certificates of Obligation |    | 6,326    |  |  |
| Sports Complex Project          |    | 26,946   |  |  |
| Total Restricted Cash           | \$ | 441,920  |  |  |

#### NOTE D -- PROPERTY TAX CALENDAR

The City's property tax is levied and becomes collectible each October 1 based on the assessed values listed as of the prior January 1, which is the date a lien attaches to all taxable property in the City. Assessed values are established by the Live Oak County Appraisal District at 100% of estimated market value. Assessed values are reduced by lawful exemptions to arrive at taxable values. A revaluation of all property is required to be completed every four (4) years. The total taxable value as of January 1, 2019, upon which the fiscal 2020 levy was based, was \$145,100,873 (i.e., market value less exemptions). The estimated market value was \$151,908,974, making the taxable value 96% of the estimated market value.

The City is permitted by the Constitution of the State of Texas to levy taxes up to \$2.50 per \$100 of taxable assessed valuation for all governmental purposes. Pursuant to a decision of the Attorney General of the State of Texas, up to \$1.50 per \$100 of assessed valuation may be used for the payment of long-term debt. The combined tax rate to finance general governmental services, including the payment of principal and interest on long-term debt, for the year ended September 30, 2020, was \$0.53490 per \$100 of assessed value, which means that the City has a tax margin of \$1.9651 for each \$100 value and could increase its annual tax levy by approximately \$2,851,377 based upon the present assessed valuation before the limit is reached. The current delinquent tax receivable for the year ended September 30, 2020 is \$115,799.

# NOTE E -- RECEIVABLES

Receivables for the City as of September 30, 2020 are as follows:

|                                       | General<br>Fund |         | Debt Service<br>Fund |          | Nonmajor<br>Funds |        |      | Utility<br>Fund |
|---------------------------------------|-----------------|---------|----------------------|----------|-------------------|--------|------|-----------------|
| Receivables                           |                 |         |                      |          |                   |        |      | ·               |
| Property Tax                          | \$              | 70,942  | \$                   | 44,857   | \$                | -      | \$   | _               |
| Sales and Mixed Beverage Tax          |                 | 130,838 |                      | -        |                   | -      |      | -               |

Land and Construction in Progress are not depreciated.

### NOTE G -- LONG-TERM DEBT

The government issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities, the purchase of equipment, and street repair. Certificates of Obligation bonds have been issued for both Governmental activities and business-type activities. The original amount of the Certificate of Obligation bonds issued was \$1,116,000 and \$2,000,000 for the 2004 and 2012 series, respectively. The Certificates of Obligation carry an interest rate of 5.055% and 3.870% and matured on June 15, 2020 and July 15, 2020, respectively. Certificates of Obligation bonds are direct obligations and pledge the full faith and credit of the government and are secured solely from property tax revenues and utility revenues. The general fund and the utility fund are used to service the bonds. These bonds were refunded August 2020.

In July 2016, the City issued Certificates of Obligation Series 2016 in the amount of \$800,000 for Wastewater Plant improvements. The Certificates of Obligation carry an interest rate of 2.09% and mature on September 1, 2026.

In August 2020, the City issued Certificates of Obligation Refunding Series 2020 in the amount of \$1,644,000 to refund the Certificate of Obligation bonds issued in 2004 and 2012. The Certificates of Obligation Refunding Series 2020 carry an interest rate of 2.15% and mature on January 15, 2032. The refunding resulted in gross debt service savings of \$136,754 and a present value savings of \$119.684.

# NOTE G -- LONG-TERM DEBT (Continued)

All series were privately placed with a bank and contain no subjective acceleration clauses, events of default with finance-related consequences, or termination events with finance-related consequences.

Changes in long-term debt were as follows:

|  | -   | Balance<br>0/1/2019 | A  | Additions | R  | eductions | Balance<br>/30/2020 | <br>ie Within<br>ne Year |

#### NOTE H -- EMPLOYEES' RETIREMENT SYSTEMS

Texas Municipal Retirement System

### Plan Description

The City participates as one of over 888 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the state of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the system with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at <a href="https://www.tmrs.com">www.tmrs.com</a>.

All eligible employees of the City are required to participate in TMRS retirement system

#### **Benefits Provided**

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the City-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payment options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

At the December 31, 2019 valuation and measurement date, the following employees were covered by the benefit terms:

| _  | 2018 | 2019 |
|--|------|------|
| Inactive employees or beneficiaries currently receiving benefits | 7    | 8    |
| Inactive employees entitled to but not yet receiving benefits    | 39   | 44   |
| Active employees   | 32   | 35   |
|  | 78   | 87   |

2010

2010

### NOTE H - EMPLOYEES' RETIREMENT SYSTEMS (Continued)

#### **Contributions**

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

For the year ending September 30, 2020, employees for the City were required to contribute 5% of their annual gross earnings during the fiscal year. The contribution rates for the City were 6.12% and 6.33% in calendar years 2019 and 2020, respectively. The City's contributions to TMRS for the year ended September 30, 2020 were \$86,851, and were equal to the required contributions.

#### **Net Pension Liability**

The City's Net Pension Liability (NPL) was measured as of December 31, 2019, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

#### **Actuarial Assumptions**

The Total Pension Liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.5% per year Salary Increases 3.0% per year Investment Rate of Return\* 6.75%

Salary increases were based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees is used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

<sup>\*</sup> Presented net of pension plan investment expense, including inflation

## NOTE H -- EMPLOYEES' RETIREMENT SYSTEMS (Continued)

#### **Actuarial Assumptions** (Continued)

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2109 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage and by adding the expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of returns for each major asset class are summarized in the following table:

Long-Term

|                       |                   | Expected Real  |
|-----------------------|-------------------|----------------|
|                       |                   | Rate of Return |
| Asset Class           | Target Allocation | (Arithmetic)   |
| Global Equity         | 30.00%            | 5.30%          |
| Core Fixed Income     | 10.00%            | 1.25%          |
| Non-Core Fixed Income | 20.00%            | 4.14%          |
| Real Return           | 10.00%            | 3.85%          |
| Real Estate           | 10.00%            | 4.00%          |
| Absolute Return       | 10.00%            | 3.48%          |
| Private Equity        | 10.00%            | 7.75%          |
|                       | 100.00%           |                |

## NOTE H -- EMPLOYEES' RETIREMENT SYSTEMS (Continued)

#### **Discount Rate**

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

#### Changes in the Net Pension Liability

The below schedule presents the changes in the Net Pension Liability as of December 31, 2019:

|                                     | Total Pension Liability |           | Plan Fiduciary Net Position |    | et Pension<br>Liability |

Sensitivity of the net pension liability to changes in the discount rate.

#### NOTE H -- EMPLOYEES' RETIREMENT SYSTEMS (Continued)

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (5.75%) or 1-percentage point higher (7.75%) than the current rate:

|                               | Dis | count Rate | Disc | count Rate | Disc | count Rate |
|-------------------------------|-----|------------|------|------------|------|------------|
|                               |     | 5.75%      |      | 6.75%      |      | 7.75%      |
| Net Pension Liability (Asset) | \$  | 414,059    | \$   | 173,879    | \$   | (23,016)   |

#### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at www.tmrs.com.

#### Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

For the year ended September 30, 2020, the City recognized pension expense of \$22,652. Also, as of September 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|                                   | $D\epsilon$ | Deferred<br>Outflows of |           | eferred  |  |
|-----------------------------------|-------------|-------------------------|-----------|----------|--|
|                                   | Out         |                         |           | flows of |  |
|                                   | Re          | sources                 | Resources |          |  |
| Differences between Expected and  |             |                         |           |          |  |
| Actual Economic Experience        | \$          | -                       | \$        | 125,729  |  |
| Changes in Actuarial Assumptions  |             | 16,026                  |           | -        |  |
| Differences Between Projected and |             |                         |           |          |  |
| Actual Investment Earnings        |             | _                       |           | 46,059   |  |
| Contributions Subsequent to the   |             |                         |           |          |  |
| Measurement Date                  |             | 62,548                  |           |          |  |
|                                   | \$          | 78,574                  | \$        | 171,788  |  |
|                                   |             |                         |           |          |  |

Deferred outflows of resources in the amount of \$62,548 is related to pensions resulting from contributions subsequent to the measurement date, and will be recognized as a reduction of the net pension liability for the plan year ending December 31, 2020. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| For the Year ended December 31, |                 |
|---------------------------------|-----------------|
| 2020                            | \$<br>(72,568)  |
| 2021                            | (57,935)        |
| 2022                            | (2,330)         |
| 2023                            | (22,929)        |
| 2024                            | -               |
|                                 | \$<br>(155,762) |

#### NOTE I -- OTHER POSTEMPLOYMENT BENEFIT (OPEB)

The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB. Membership in the plan at December 31, 2019, the valuation and measurement date, consisted of:

| Inactive employees or beneficiaries currently receiving benefits | 8  |
|--|----|
| Inactive employees entitled to but not yet receiving benefits    | 6  |
| Active employees   | 35 |
| Total  | 49 |

The SDBF required contribution rates, based on these assumptions, are as follows:

|                                      | Total SDBF<br>Contribution<br>Rate | Retiree Portion of<br>SDBF Contribution<br>Rate |
|--------------------------------------|------------------------------------|---|
| For the Plan Year Ended December 31, |                                    |   |
| 2019                                 | 0.17%                              | 0.02%   |
| 2020                                 | 0.19%                              | 0.02%   |

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers. The actuarial assumptions used in the December 31, 2019 valuation were based on the results of an actuarial experience study for the period of December 31, 2010 to December 31, 2014. The assumptions are summarized below:

| Inflation                           | 2.50% per year  |
|-------------------------------------|---|
| Salary Increases                    | 3.50% to 11.50% Including Inflation   |
| Discount Rate                       | 2.75% (Based on Fidelity's 20-Year Muinicipal GO AA Index)  |
| Administrative Expenses             | All administrative expenses are paid through the Pension Trust<br>and accounted for under reporting requirements under GASB<br>Statement No. 68                   |
| Mortality Rates - Service Retirees  | 2019 Municipal Retirees of Texas mortality rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements.           |
| Mortality Rates - Disabled Retirees | Same as service with a 4 year set-forward for males and a 3 year set-forward for females and subject to the 3.5% and 3% floor for males and females respectively. |

# NOTE I -- OTHER POSTEMPLOYMENT BENEFIT (Continued)

The City's Total OPEB Liability (TOL), based on the above actuarial factors, as of December 31, 2019, the measurement and actuarial valuation date, was calculated as follows:

|                                 | Total OPEB<br>Liability |         |  |  |
|---------------------------------|-------------------------|---------|--|--|
| Balance at December 31, 2018    | \$                      | 57,564  |  |  |
| Changes for the year:           |                         | _       |  |  |
| Service Cost                    |                         | 4,314   |  |  |
| Interest                        |                         | 2,211   |  |  |
| Change of Benefit Terms         |                         | -       |  |  |
| Difference Between Expected and |                         |         |  |  |
| Actual Experience               |                         | (4,338) |  |  |
| Changes of Assumptions or Other |                         |         |  |  |
| Inputs                          |                         | 14,580  |  |  |
| Benefit Payments                |                         | (254)   |  |  |
| Net Changes                     |                         | 16,513  |  |  |
| Balance at December 31, 2019    | \$                      | 74,077  |  |  |

There is no separate trust maintained to fund this TOL. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement No. 75 to pay related benefits.

The following presents the Total OPEB Liability (TOL) of the City, calculated using a discount rate of 3.71%, as well as what the City's TOL would be if it were calculated using a discount rate that is 1-percentage point lower (2.71%) and 1-percentage point higher (4.71%) than the current rate:

|                              | Disc | Discount Rate<br>1.75% |    | Discount Rate 2.75% |    | Discount Rate 3.75% |  |
|------------------------------|------|------------------------|----|---------------------|----|---------------------|--|
|                              |      |                        |    |                     |    |                     |  |
| Total OPEB Liability (Asset) | \$   | 92,081                 | \$ | 74,077              | \$ | 60,374              |  |

For the year ended September 30, 2020, the City recognized OPEB expense of \$6,920. And reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|                                      | Deferred<br>Outflows of | •   | eferred<br>flows of |
|--------------------------------------|-------------------------|-----|---------------------|

|                                      |                         |     |                     |

## NOTE I -- OTHER POSTEMPLOYMENT BENEFIT (Continued)

Deferred outflows of resources in the amount of \$2,038 is related to the OPEB benefits resulting from contributions subsequent to the measurement date, and will be recognized as a reduction of the new OPEB liability for the plan year ended December 31, 2020. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| For the Plan Year ended December 31, |             |
|--------------------------------------|-------------|
| 2020                                 | \$<br>967   |

| 2022                                 | 967         |
| 2023                                 | 68          |
| 2024                                 | 1,226       |
| Thereafter                           |             |
|                                      | \$<br>4,195 |

#### NOTE J -- INTERFUND TRANSACTIONS

As of September 30, 2020, interfund receivables and payables that resulted from various interfund transactions were as follows:

| Due from/Due to   |                 | mount                               | Purpose   |
|---|-----------------|-------------------------------------|---|
| General Fund/Proprietary Fund<br>General Fund/Debt Service Fund<br>Proprietary Fund/Nonmajor Funds<br>Total | \$<br><u>\$</u> | 63,096<br>1,044<br>24,768<br>88,908 | Utility Collections on-behalf of Proprietary Fund I&S Tax Deposit on-behalf of Debt Service Fund Court-Related Collections on-behalf of other funds |

The following transfers occurred during the year ended September 30, 2020:

| From         | To          | Amount Reason                         |
|--------------|-------------|---------------------------------------|
| Debt Service | Proprietary | \$ 188,065 In support of debt service |
|              |             | \$ 188,065                            |

#### NOTE K - DEFICIT FUND BALANCE

The General Fund Unassigned Fund Balance had a negative fund balance of \$49,480. The City plans to reduce expenditures until the fund balance returns to a positive amount.

#### NOTE L -- COMMITMENTS AND CONTINGENCIES

# Litigation

The City is the subject of various other claims and litigation that have arisen in the course of its operations. Management is of the opinion that the City's liability in these cases, if decided adversely to the City, will not have a material effect on the City's financial position.

#### **NOTE M -- RISK MANAGEMENT**

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures. The City contracts with the Texas Municipal League (TML) to provide insurance coverage for property and casualty, and workers compensation. TML is a multi-employer group that provides for a combination of risk sharing among pool participants and stop loss coverage. Contributions are set annually by the provider. Liability by the City is generally limited to the contributed amounts for losses up to \$1,000,000. Annual contributions for the year ended September 30, 2020 were \$74,624 for property and casualty and workers compensation coverage.

|---|---|
|   | SEPTEMBER 30, 2020  |
|   | Budgetary Information – The budget is prepared in accordance with accounting principles generally accepted in the United States of America. The City maintains strict budgetary controls. The objective of these controls is to ensure compliance with legal provision embodied in the annual appropriated budget |
|   | approved by the City Council and as such is a good management control device. The following are the funds which have legally adopted annual budgets: General Fund and Debt Service Fund.  |
|   | Budgetary preparation and control is exercised at the department level. Actual expenditures may not legally exceed appropriations at the fund level.  |
|   | The City does not use encumbrances.   |
